PRISM Teacher of the Month

Scott Richie
John Glenn High School
Walkerton, IN

The main feature that I utilize on Moodle is the assignment feature. Most of the assignments I create involve students either reading an informational text that I have uploaded or viewing a video with a URL linked within my Moodle classroom page. Examples of assignments that students will complete can include watching a variety of Crash Course Government videos and responding online to customized writing prompts. Furthermore, I can link or upload a PDF to a variety of articles or documents. In Economics, I may have students read an article or view a graphic involving compound interest or publications produced by the Federal Reserve and have them respond online to the prompt. In addition, students are encouraged to stay knowledgeable on current research or events by summarize articles available through the RSS Feed feature. Student submissions can be graded efficiently on most portable devices by utilizing rubrics that can easily be created within the assignment feature. (several assignment examples listed below)

In addition to creating assignments, the other features on Moodle allow me to create a "one-stop shopping experience" for my students. Whether it be making videos viewed in class readily available online or linking course related websites within a particular unit module, the Moodle LMS allows me to manage my courses even when I have to deal with those students who have excessive absences. Moodle through PRISM has been the perfect LMS for my usage in the 1:1 classroom and has effectively allowed me to recreate my classroom in a variety of ways.

Video Review and Writing Prompt

After watching the Crash Course Federalism video, describe the concept of federalism and explain how it has changed in the U.S. over time. You may also include your opinion on the roles that the federal and state government should play in regards to various contemporary issues.

Article Review and Writing Prompt

After reading the "Retire a Millionaire" article, share your thoughts about the ideas presented in the article. How might these ideas impact your strategy for saving money in the short/long term?

Retire a Millionaire Article

Retire a Millionaire Response Assignment

Using RSS Feeds on Course Page

Choose an article from the RSS Feed on the right side of the course page. Read the article. Type the title of the article and type a response that summarizes the article. Include specific details from the article to prove that you read the article.

Writing a Summary Guidelines

1. Do not rewrite the original piece.
2. Keep your summary short.
3. Use your own wording.
4. Refer to the central and main ideas of the original piece.
5. Read with who, what, when, where, why and how questions in mind.
6. Do not put in your opinion of the issue or topic discussed in the original piece.

Unique "Political Cartoons" Assignment

Use the link to "Political Cartoons of The Week" to find a political cartoon about a current issue/event. Paste the IMAGE of the cartoon (Control C, Control V) into the text box with your submission. Also, include a short paragraph on what point of view that this cartoon is attempting to express and any opinion you may have about it. You need both an image of the cartoon and an explanation.

Political Cartoon-Current Issue/Event Assignment

Political Cartoon-Current Issue/Event

Use the link to "Political Cartoons of The Week" to find a political cartoon about a current issue/event. Paste the IMAGE of the cartoon (Control C, Control V) into the text box with your submission. Also, include a short paragraph (minimum 4 sentences) on what point of view that this cartoon is attempting to express and any opinion you may have about it. You need both an image of the cartoon and an explanation.

Digital Resources

educreations

Educreations is a unique interactive whiteboard and screencasting tool that's simple, powerful, and is fun to use in the classroom. Annotate, animate, and narrate nearly any type of content as you explain any concept. Ideas can be captured by recording video lessons that students and colleagues can access at any point in time and from anywhere. Lessons and other creations can be replayed by students at home or in other classes. Videos can be share via any of the social media including YouTube, Twitter and Facebook. It is an excellent resource for great teachers.

Visit online: <https://www.educreations.com/>

Kahoot for Schools helps teachers collaborate, save time and create truly engaging lessons and games for their students. Teachers and collaborate and co-create lessons on kahoot in private team spaces. Lessons and games created can be highly organized by subject, grade level, unit or department.

High quality kahoots can truly increase student engagement in your classroom. Student progress can be monitored, tracked and shared for formative assessments. Creating fun and learning games is a big part of the kahoot program. The format and number of questions

are entirely up to the teacher. Videos, images and diagrams can be added to your questions to amplify engagement. Kahoots are best played in a group setting. Players answer the questions on their own devices, while games are displayed on a shared screen to unite the lesson. It creates a 'campfire moment' encouraging players to look up and celebrate together. Besides creating your own kahoots, you can search among millions of existing games. Social learning promotes discussion and pedagogical impact, whether players are in the same room or on the other side of the globe. After a game, players can be encouraged to create and share their own kahoots to deepen understanding, mastery and purpose, as well as engage in peer-led discussions.
