

Magnify Learning

- student engagement = student success
- student-focused
- critical thinking skills
- 21st Century skills
- standard-based

Project Based Learning (PBL) is a teaching strategy that engages students in their own learning through inquiry and hands-on expression, resulting in academic achievement and personal skills development. Since 2009, PBL training has been provided to more than 2,200 Indiana K-16 educators by three not-for-profit initiatives focused on improving student success:

- The PBL Institute ([register here](#))
- The PBL Academy ([register here](#))
- The Talent Initiative ([register here](#))

These 3 groups have now partnered to create one Indiana source for professional development and ongoing support in PBL...

Magnify Learning

The goal of **Magnify Learning** is to provide educators with tools to improve student achievement through rigorous, authentic projects done with community partners that address academic standards and lead to deeper learning.
